\*Plus \$15/mo. hosting fee which includes domain name, 2 email addresses, upgrades and database backup. 12 month contract. Annual fees must be paid in full.

## Our Website Design Package for Curling Clubs

Hurricane Web Design Ltd. is the creator of Playdowns.com - which is the online playdown results provider for the Northern Ontario Curling Association. As a partner with NOCA for their playdown results, we are happy to offer special rates for website design only available for their member clubs.

Our special curling club package comes with a content management system to allow you to make changes to the content and images in real-time using your web browser. If you are looking to maintain your own website, then this is essential. Each site comes with a manual to help you add news, photos and pages to the site.

Your website begins as a template that we can customize the layout, colors, and fonts and add your logo to. We start you with five pages. Suggested pages are home, about, news, gallery and contact information. After that, you can add pages yourself using the content management system. We can even integrate your site with Facebook and Twitter.
